

Our Fiberglass Tanks are hand-made or filament wound, using machine-made fiberglass mat and woven roving.

Because potable water storage tanks are lightweight, corrosion resistant and virtually maintenance free, PPT tanks are preferred by farmers and ranchers alike.

All tanks have optional top available and can be can be manufactured to store potable water directly without liners or bladders common in both steel and concrete tanks.

POTABLE WATER STORAGE TANKS

Size (w x h)	Gallons
6 x 6	1250
8 x 6	2200
8 x 8	3000
8 x 10	3760
10 x 10	5875
10 x 15	8800
12 x 12	10150
12 x 15	12690
12 x 20	16900
12 x 24	20300

Authorized for use in the NRCS cost sharing program

OPEN WATER STORAGE TANKS

Size (w x h)	Gallons
8 x 6	2200
10 x 6	3500
12 x 6	5000
16 x 6	9000
16 x 8	12000
25 x 6	22000
25 x 8	30000

Power Pipe and Tank has supplied the oil patch for over 35 years with quality fiberglass oil tanks and other products.

From Gun Barrels to "210's" to full blown tank batteries, our staff is very familiar with API standards and is fully capable of meeting or exceeding those requirements. Although

there are standardized rigging scenarios, we understand the importance of being able to rig out a tank in a customized fashion and we are pleased to do so.

STANDARD TANK SIZES & CAPACITIES

Diameter	Shell Ht.	Barrel	Gallons
4'	4'	9	378
6'	2 3/4'	13	546
5'	6'	21	882
6'	5'	25	1050
7'	6'	41	1722
7'	7 1/2'	55	2310
8'	6'	55	2310
10'	6'	85	3570
12'	6'	120	5040
12'	10'	210	8820
16'	6'	210	8820
10'	15'	210	8820
10'	20'	280	11760
16'	8'	280	11760
12'	15'	300	12600
10'	24'	335	14070
12'	20'	400	16800
