

## CUSTOM PRODUCTS

Power Pipe and Tank designs and fabricates custom fiberglass parts including, but certainly not limited to, the following:

### DISTRIBUTED PRODUCTS

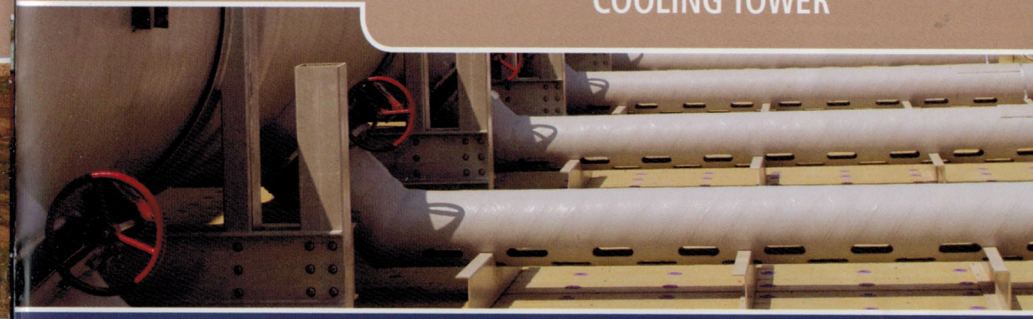

- Oil Skimmers
- Fiberglass Pipe
- Fiberglass Pultruded Shaped
- Fiberglass Grating
- Fiberglass Fittings

### CUSTOM FABRICATION

- Fish Ponds
- Motorcycle Compartment
- Gear Head Covers
- Large Industrial Scrubbers
- Wildlife Water Tanks
- Motorcycle Trunks
- Tank Manifolds
- Filter Vessels
- Fiberglass Ducting
- Fiberglass Ladders
- Fiberglass Tank Lining
- Fan Blades
- Compost Compartments
- Amusement Park Ride Components

## COOLING TOWER

Power Pipe and Tank cooling tower products incorporate field-proven, industrial-quality components designed by our team of engineers.

### FIBERGLASS CROSS-FLOW CONTROL VALVES

- Heavy Duty Fiberglass Construction
- Stainless Steel Metal Components
- ACME Thread Nut Assembly
- Tested at 25 PSI
- Light Weight
- Eliminates Need for Crane at Installation
- Less Stress on Header Pipe

### HEADER PIPES

Power Pipe and Tank has fabricated scores of header pipes over the years of various sophistication. Beginning the fabrication process of the headers was natural for us since our deluxe FRP distribution valves are an integral part of the whole water flow mechanism.

### FIBERGLASS TOP DECK OVERLAY

- Protects New & Old Decks from Deterioration
- Aesthetically Pleasing
- Fabricated as sheets or bonded to plywood

### BASINS

The latest cooling tower component product developed by Power Pipe and Tank is the hot water basin. On top of Texas Instruments wafer manufacturing building and atop a Virginia hospital are the first two such basins, the largest measuring 121 feet long x 25 feet wide. Both basins were complete with sump tanks, weirs with gates and extra-strong outside flanges.

### FIBERGLASS LOUVERS AND SUPPORT ARMS

- Heavy Duty 20oz. Construction
- 48", 72", or 96" Panels
- Gray Color with UV Protection
- Ease of Installation - Costs Reduced by 30%
- Extended Longevity
